

## Head to Head Comparisons: Traditional Joint Replacement on One Knee—The SwiftPath Method on the Other

One way to measure the success of joint replacement methods is to hear directly from patients who have experienced joint replacement both the traditional way and using the SwiftPath Method. Thanks to Facebook, several SwiftPath patients have posted unsolicited reviews on the SwiftPath Facebook page, sharing their experiences.

 **Laurie Lambert** I did too. Regular last year and Swiftpath this year. the difference was amazing. I had very little pain and got back to work at 4 weeks post surgery. Already finished with PT. So glad I chose Swiftpath.

Cirugía de Reemplazo

**HIP**

Las medidas críticas relacionadas con la elección, el posicionamiento y la fijación de los nuevos componentes de la cadera incluyendo:

- La longitud de la pierna
- Desbalance de la cadera

Minimizar con exactitud de estos factores puede reducir complicaciones tales incluyendo:

- Asimetría de la longitud de la pierna
- Requiere admisión al hospital para la segunda cirugía para reajustar la cadera

Los resultados óptimos de cirugía de reemplazo de cadera depende de la técnica quirúrgica, manejo del dolor, ejercicios posteriores y posicionamiento del paciente. El uso de los dispositivos SwiftPath mejora la precisión de la fijación de los implantes de cadera.

El **SwiftPath** puede ayudar con un posicionamiento preciso del implante y prevención de:

- Instabilidad/dislación de la cadera
- Asimetría de longitud de pierna
- Retraso prolongado del implante
- Alargamiento del implante
- Alargamiento hospitalario
- Revisión de cirugía de cadera

Guía al Paciente

Morteza Meftah, MD

## SwiftPath Releases First Spanish Patient Guide

Dr. Morteza Meftah, SwiftPath surgeon at Bronx-Lebanon Hospital Center, specializes in hip and knee replacement. Since English is a second language for many of his Hispanic patients, Dr. Meftah and SwiftPath partnered to create a Spanish Patient Guide. This ensures that more patients can be actively engaged in their joint replacement journey.

## Custom Microsites Now Available for SwiftPath Surgeons

Surgical practice websites are often generic and limited to information pertaining to the larger group of surgeons. Now available to SwiftPath surgeons is a URL of their name and customized content. These sites are co-branded with SwiftPath, providing potential patients with an overview of what makes SwiftPath unique and the benefits of SwiftPath joint replacement.

**ANDREW B. WICKLINE, MD ORTHOPEDIC SURGEON** Request Appointment 315.738.5069

Return quickly to the life you love.

**Meet Dr. Wickline**  
Dr. Wickline is a SwiftPath surgeon, practicing at Genesee Orthopedics in New Hartford, NY. He can relate to the experience of his patients, as he has an arthritic knee and hip. He thinks about what he wants for himself and works hard to provide his patients with the excellent standard of service and expertise he would expect.

As a SwiftPath surgeon, Dr. Wickline is at the cutting edge of joint replacement excellence. SwiftPath changes the existing paradigm with state of the art methods to improve outcomes, reduce complications, reduce the need for narcotics, and return patients quickly to a more mobile life.

- Outpatient and Shorter Stays
- Minimally Invasive Techniques
- Shared Decision Making
- Online, Cloud-Based Patient-Reported Outcomes
- Rapid Rehabilitation
- Readmission Prevention
- Modern Pain Management
- Patient & Family Engagement
